VULNEX — FULL DEVICE REPORT

Combined endpoint inventory and network security assessment

Field	Value
Generated	2026-09-21T13:43:19
IP	192.168.0.105
Hostname	test.local
MAC	Unknown
Vendor	Unknown
Device Type	Local Endpoint
Operating System	Darwin
Agent Inventory	Configured

Endpoint Collection Summary

Field	Value
Collector	local
Schema Version	Unknown
Scope	Unknown
Read Only	Unknown
Software Records	0
Service Records	0
User Records	0
Network Interfaces	0
Updates Available	Unknown

Hardware Inventory

Field	Value
cpu	Apple
ram_gb	16

Operating System & Identity

Field	Value
hostname	test.local
os	Darwin
os_release	24.0

Network Inventory

Field	Value
Hostname	test.local
IPv4 Addresses	192.168.0.105
Default Gateway	Unknown

Field	Value
DNS Servers	Unknown

Software Update Status

Field	Value
Supported	False
Source	Unknown
Updates Available	Unknown

Installed Software

No installed software were received.

Services

No services were received.

Local Users

No local users were received.

Open Ports & Services

Port	Protocol	Service	Product	Version
—	—	No open ports reported	—	—

Vulnerability Findings

No CVE findings were returned by the current assessment pipeline.
